

EHDA

European Health Data Alliance e.V.

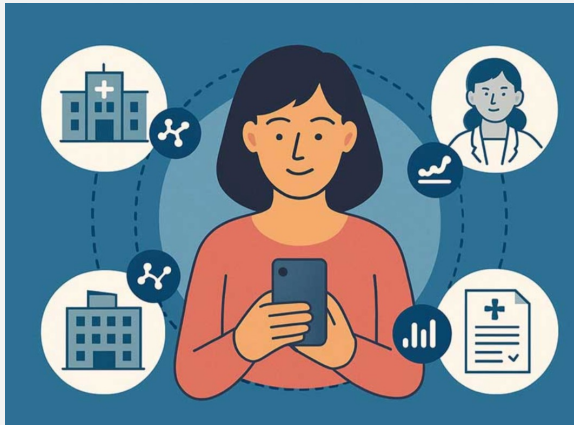

A SHARED VISION FOR THE FUTURE OF HEALTH DATA

What we have

1. Components that work
2. People with Know-How
3. Organisations with complementing goals

Example projects that aim to establish a dataspace

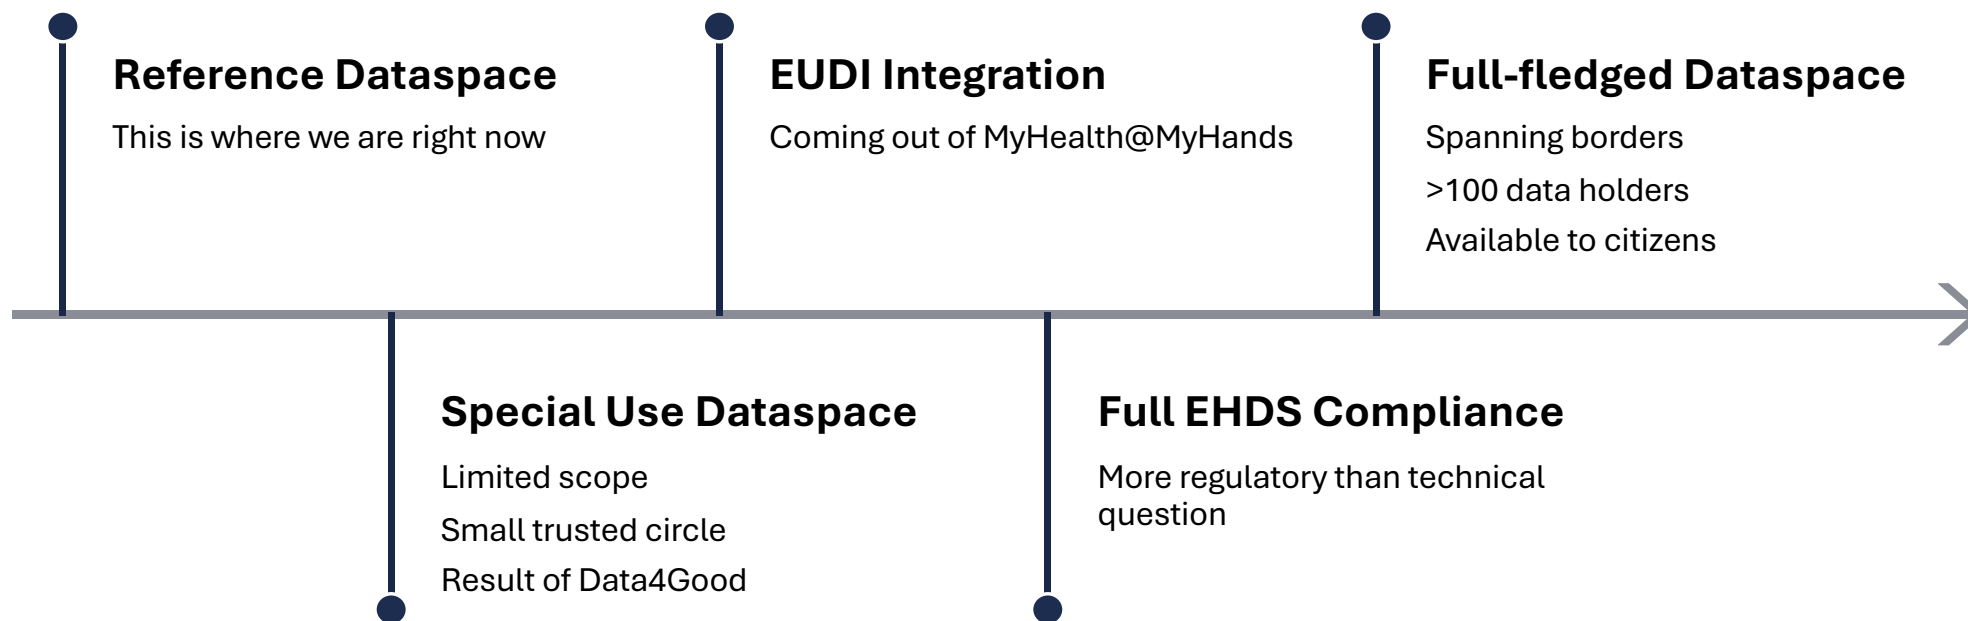

DATA 4 GOOD

Roadmap

Where we go from here

Dataspaces and YOU

- Find data and services you might be able to share eventually
- Join at least one dataspace provider – even without pressing usecase!
- Build up critical mass
- Give input to Governance and architecture working groups
